COST ESTIMATE - DESIGNER

SCHEMATIC DESIGN COST ESTIMATE – REVISION 4

01 JULY 2021

NORTHEAST METROPOLITAN REGIONAL TECHNICAL HIGH SCOOL

WAKEFIELD, MA

SCHEMATIC DESIGN COST ESTIMATE - REVISION 4

PROJECT DETAILS

Basis of estimate

This estimate has been prepared at the request of DRA Architecture and is to provide a Schematic Design Cost Estimate of construction cost for the proposed Northeast Metropolitan Regional Technical High School located in Wakefield, Massachusetts.

The estimate is based upon measured quantities and built-up rates prepared from the Schematic Design submittal package dated May 19 2021, prepared by DRA Architecture and have been updated based on the Designers accepted value engineering ideas which includes narratives and sketches that have been issued to RLB on or before June 18, 2021.

Where information was insufficient, assumptions and allowances were made based wherever possible on discussions with the architect and engineers.

It is understood that the project will be procured using a CM/GC procurement arrangement where the CM/GC will be required to receive a minimum of three subcontract bids for each trade. It has been assumed that the CM/GC will only be allowed to self-perform work for the project under competitive bidding circumstances.

The estimate is based on the assumption that the CM/GC and all subcontractors will be required to pay prevailing wage rates.

Unit pricing is based on July 2021 costs. Construction cost escalation has been carried at 9.5% in the estimate and assumes a Q2 2022 construction start. A Design / Estimating contingency at 7.5% and a Construction Manager's Contingency at 2.5% has been included in the estimate.

Items specifically included

. Please refer to Estimate Detail.

Items specifically excluded

- . Hazardous materials abatement, unless noted otherwise.
- . Rock excavation.
- . Costs associated with phasing the construction work, including out of hours work.
- . Furniture, Fittings and Equipment (FF&E).
- . Murals and works of art.
- . Mock-ups.
- . Work outside the site boundaries unless noted otherwise.
- . Special testing & inspections
- . Utility tap fees and charges
- . Permits & plan review fees
- . Owner's / Construction contingency.

BOS20013-206 Page **1** of 89

SCHEMATIC DESIGN COST ESTIMATE - REVISION 4

PROJECT DETAILS

- . Land and legal costs.
- . Architectural, Engineering and other professional fees.
- . Geotechnical, traffic and all other studies.
- . Items marked as "Excl." in the estimate.
- . Escalation beyond August 2023.

Documents

. Please refer to Basis of Estimate.

SCHEMATIC DESIGN COST ESTIMATE – REVISION 4

01 JULY 2021

NORTHEAST METROPOLITAN REGIONAL TECHNICAL HIGH SCOOL

WAKEFIELD, MA

SCHEMATIC DESIGN COST ESTIMATE - REVISION 4

PROJECT DETAILS

Basis of estimate

This estimate has been prepared at the request of DRA Architecture and is to provide a Schematic Design Cost Estimate of construction cost for the proposed Northeast Metropolitan Regional Technical High School located in Wakefield, Massachusetts.

The estimate is based upon measured quantities and built-up rates prepared from the Schematic Design submittal package dated May 19 2021, prepared by DRA Architecture and have been updated based on the Designers accepted value engineering ideas which includes narratives and sketches that have been issued to RLB on or before June 18, 2021.

Where information was insufficient, assumptions and allowances were made based wherever possible on discussions with the architect and engineers.

It is understood that the project will be procured using a CM/GC procurement arrangement where the CM/GC will be required to receive a minimum of three subcontract bids for each trade. It has been assumed that the CM/GC will only be allowed to self-perform work for the project under competitive bidding circumstances.

The estimate is based on the assumption that the CM/GC and all subcontractors will be required to pay prevailing wage rates.

Unit pricing is based on July 2021 costs. Construction cost escalation has been carried at 9.5% in the estimate and assumes a Q2 2022 construction start. A Design / Estimating contingency at 7.5% and a Construction Manager's Contingency at 2.5% has been included in the estimate.

Items specifically included

. Please refer to Estimate Detail.

Items specifically excluded

- . Hazardous materials abatement, unless noted otherwise.
- . Rock excavation.
- . Costs associated with phasing the construction work, including out of hours work.
- . Furniture, Fittings and Equipment (FF&E).
- . Murals and works of art.
- . Mock-ups.
- . Work outside the site boundaries unless noted otherwise.
- . Special testing & inspections
- . Utility tap fees and charges
- . Permits & plan review fees
- . Owner's / Construction contingency.

BOS20013-206 Page **1** of 97

SCHEMATIC DESIGN COST ESTIMATE - REVISION 4

PROJECT DETAILS

- . Land and legal costs.
- . Architectural, Engineering and other professional fees.
- . Geotechnical, traffic and all other studies.
- . Items marked as "Excl." in the estimate.
- . Escalation beyond August 2023.

Documents

. Please refer to Basis of Estimate.
